

AUSTRALIAN STUDY LINK INSTITUTE

ASLI NEWSLETTER

Every student enjoys getting out of the classroom and exploring the world. Great educational excursions require a lot of organisation and effort, but the benefits may be enormous for both students and trainers. This is an experience that students remember for a long time. Such activities add a new layer to classroom learning and help reinforce what is taught in the classroom. Students may study in a new environment with real-world examples. At ASLI, we consistently encourage both theoretical and practical learning components. This month, our students went on a food expo tour to the Melbourne Exhibition Centre. They had a great time, and we are looking forward to organising more excursion days for them.
