

Critical Incident Policy

1. Purpose

Australian Study Link Institute has a duty of care to protect and provide the highest possible standard of health and safety for its students, staff and visitors. ASLI aims to be in state of preparedness to deal with any critical incident which may arise during on campus and off campus activities through effective planning, management and rehearsal.

The purpose of this policy is to recognise the duty of care owed by the institute to all persons associated with ASLI in accordance with the ESOS Act National Code 2018 Standard 6 (Ref 6.8) and Outcome Standard 2.6 of the Standards for RTOs 2025.

ASLI has implemented a documented policy and process for managing critical incidents that could affect the student's ability to undertake or complete a course, such as but not limited to incidents that may cause physical or psychological harm. Critical incidents may include but are not limited to: death or serious injury, missing students, severe verbal or physical assault, fire, natural disaster, drug or alcohol abuse, mental health crisis, and threats to life or property.

This policy includes contact information of the police, emergency services and any other organisations that may be able to assist in such a situation, for example, community/multi-cultural organisations or phone-counselling services. This policy applies to all students, staff, contractors, and visitors engaged in ASLI activities, on or off campus. This policy is supported by documented procedures, reviewed regularly as part of ASLI's continuous improvement process.

2. Responsibility

The CEO is responsible for the implementation of this policy and to ensure that staff and students are aware of its application and that staff implement its requirements if necessary. Staff and students will be informed of the policy through induction and regular updates via the Newsletter and regular campus communications.

ASLI will maintain a written record of any critical incident and remedial action taken by the ASLI for at least two years after the overseas student ceases to be an accepted student to comply with standard 6.8 of the National Code 2018. Records will be retained in line with ASLI's Records Management Policy.

ASLI will assist staff and students to prevent or respond promptly, effectively and appropriately to any incident (within or outside Australia) which is likely to cause loss of life, injury, trauma, damage, or disruption. The Campus Manager, Training Manager, Student Support Officers, and trainers/assessors are also responsible for executing incident response procedures as per ASLI's Critical Incident Procedure document.

ASLI also ensures ongoing welfare support is provided to affected students, staff including access to counselling services, academic adjustments if needed, and referrals to external services.

ASLI will ensure that:

- An effective approach is taken to respond to critical incidents as they occur
- Support and counselling services are available to those who are affected by critical incidents
- Training and information resources are provided to staff in the handling of critical incidents.
- The Critical Incident Team is responsible for coordinating responses and ensuring training effectiveness is monitored and reviewed.
- Support and counselling services will be available both onsite and via referral to external providers. ASLI ensures students are informed about these services during orientation and via the student portal.
- Responses to incidents will be timely, culturally appropriate, and tailored to the needs of affected students, including access to translated services if required.
